DEMEDASH EFFECTS

PROUDLY BUILT BY HAND IN
WINNIPEG, MANITOBA, CANADA

THANK YOU FOR YOUR
PURCHASE OF THE T-120
VIDEOTAPE ECHO.

THIS UNIT IS INTENDED TO
GIVE YOU THE SOUND OF A
POORLY AGED, BARGAIN BIN
BLANK VHS VIDEO CASSETTE
THAT WAS USED AT SOME
POINT IN THE EARLY 90'S
TO RECORD A WEDDING OR
HOME MOVIE.

THIS IS THE SOUND OF
THAT TAPE, NOW RECOVERED
FROM STORAGE AND
INSERTED INTO AN EQUALLY
OLD AND DECREPIT VCR.

THIS IS THE SOUND OF
THAT TAPE - STRETCHED,
WORN, AND AS CHEAP AS
THEY CAME, BEING MOVED
ALONG BY HARDENED RUBBER
BELTS OVER AN INTRICATE
MECHANICAL SYSTEM THAT
WENT OUT OF CALIBRATION
DECADES AGO.

REFER TO THE INFORMATION
ON THE REVERSE SIDE OF
THIS SHEET WITH REGARDS
TO THE CONTROLS ON THIS
PEDAL AND HOW THEY MAY
BE USED TO REDUCE YOUR
SIGNAL QUALITY WHILE
IMPROVING YOUR OVERALL
QUALITY OF LIFE.

REGARDS,
STEVE DEMEDASH
DEMEDASH EFFECTS.
